A RICH HERITAGE OF OVER A CENTURY OF ENGINEERING EXCELLENCE.

Kirloskar powering generating sets prioritize user experience, delivering exceptional features and benefits. Streamlined installation and enhanced dependability to expedited service, reduced maintenance costs, and optimized performance.

Kirloskar Powergen sets itself apart with groundbreaking engineering that establishes new industry benchmarks.

limitless POTENTIAL, SUSTAINABLE PRACTICES

Our state-of-the-art manufacturing facility embodies our commitment to sustainable practices. We partner with nature to power the facility itself, transforming waste into valuable resources. This focus on sustainability inspires both our workforce and surrounding communities. It's here, where cutting-edge technology meets exceptional skills, that we engineer solutions to empower limitless possibilities.

CUSTOMISED POWER SOLUTIONS FOR DYNAMIC NEEDS

Businesses worldwide face fluctuating power demands. Whether due to daily variations or specific usage patterns, a flexible power solution is essential.

Kirloskar offers the Optiprime, a customized solution ideal for applications with variable power needs. This innovative system tackles fluctuating loads, reducing fuel consumption and CO2 emissions by up to 40%.

The Optiprime's centralized control panel with an integrated Power Management System ensures optimal performance. This intelligent system seamlessly switches on or off the two power packs based on real-time load requirements.

The Optiprime's versatility extends to its configuration options. It can be deployed as a single unit, or two separate units can be combined, with prime and standby power functionalities housed within a single enclosure.

OPTIPRIME

FEATURES

Patented Hybrid Technology

Optimum Power

Optimal Efficiency

Optimised Fuel Consumption

Reduced Ownership Cost

Twin-Hybrid Power Packs and
In-built Synchronisation

Reduced Carbon Dioxide
Emissions by 40%

Reduced Nitrous Oxide
Emissions by 50%

Better Flexibility

Lower Product Footprint -
20% Reduction in Space

OPTIPRIME

FEATURES

Prime Rating:

Unlimited hours, 10% temporary overload possible.

O2E Series

Optimal Operating Efficiency even at partial loads, further reducing costs.

Bigger Engine (cc):

Better genset performance and faster load handling

Common Rail Direct Injection (CRDi):

Advanced fuel injection for better performance, lower emissions, and smoother operation.

CPCB IV+ Compliant:

Performance, clean power and reduced costs

Control Your Power, Anytime, Anywhere:

Monitor your Kirloskar genset remotely, receive alerts, and access service with a tap with our Remote Monitoring System

Beyond Efficiency.

A Closer Look at Cutting-Edge Technology

O2E Series: Low Emission

High Efficiency

Efficient CRDi System

500 Hours Lube Oil Change Period

Compact, Robust and Efficient.

Microprocessor Based Controller

Graphical LCD Display

Advanced Monitoring and Diagnostics

2 X POWER: INNOVATION COMBINED WITH OPTIMAL EFFICIENCY

- Optimum Power
- Allows 25% to 100% loading
- Auto load monitoring and sharing
- Optimum Footprint
- Reduction in footprint
- Optimum Saving
- Best in class fuel consumption
- Optimized fuel Consumption at varied load

- Multiple configuration options available based on customer and site requirements
- Common Power output to load
- Single package solution
- Power redundancy
- Enhance Reliability
- Ease of handling and transportation

COMBINING INNOVATION WITH EFFICIENCY

Operation

- One Master One Slave
- Logic / power sharing with equal rating of kVA & frequency
- Inbuilt AMF Capable Controllers
- DG sets can be operated in two modes: Auto mode & Manual mode

Auto Mode

- Both DG to start in Synch within 30 sec.
- Load monitoring for 180 sec
- Continuous load monitoring
- Load transfer when load goes down below 70%
- Fully programmable

Manual Mode

- Manual Operation possibility in case of urgency
- During service schedule

Output

EFFICIENCY. INTEGRATED

A KIRLOSKAR PROMISE

Efficient Products

- India's first IoT enabled digital genset
- Designed for convenient user experience
- Best-in-class fuel efficiency delivered
- Compact design & long life product
- Optimized consumption of lubricant oil
- Optimized total cost of ownership (TCO)
- All products tested before delivery

Efficient Solutions

- Load sizing for every single genset order
- One stop power back-up solutions
- Serves complete application gamut
- Highly trained & experienced team
- Non-conventional solutions (bio-diesel)
- Specific solution for harsh environments
- Exhaust mgmt., foundation, cabling etc.

Efficient Service

- India's widest service dealer network
- Kirloskar connect-self-service application
- eFSR-Electronic field service report
- Over 6000 trained service engineers
- Over 600,000 machines under care
- 98%+ parts available at each outlet
- Flexible & economical AMC-Bandhan

Efficient Network

- Consistent, reliable & long-established
- 250+ expert touch points across India
- 500+ solution oriented professionals
- Uniform customer experience across
- Central system for enquiry to PRF
- Fair trade practices & Price transparency

Efficient Deliveries

- Cost-effective deliveries guaranteed
- Assured 7-day delivery of gensets
- Supports project management system
- Reduced working capital for customer
- Award-winning replenishment model
- Assurance of FRESH products always

Efficient 24x7 Care

- 24x7 operational customer care centre
- Team of over 70 trained & focused exec.
- Tracking every service request till closure
- Centrally maintained CRM for all requests
- Satisfaction call after every SR closure
- Central sales lead tracking system
- Continuous NPS and CDI measurement

We offer products for every segment & take part in the India's growth story.
